WHEN IT COMES TO ANTI-AGEING
THERE IS ONLY **ONE TRUTH**

THE WORLD'S ONLY SKIN SERUM CONTAINING TAM-818

ONE
TRUTH
818

ONE truth 818 serum

According to over 100 peer-reviewed science papers, human ageing and health decline are caused by the shortening of telomeres (telomeres are located at the ends of your chromosomes) ...

ONE TRUTH 818 Serum is the only telomerase product on the market to have a molecular weight small enough to penetrate skin cells, thereby inducing the production of telomerase, which prevents the shortening of your telomeres – effectively making your skin biologically younger.

One Truth 818 Serum is bio-engineered in New Zealand from a base of pure, clean and green botanical ingredients. Although potent, it will not interact adversely with LAB's other skincare products (***we cannot guarantee other products***) and there are NO contraindications... not even for pregnant and lactating women and those undergoing chemo or radiation therapy.

One Truth 818 Serum can be integrated effectively with IPL, laser, micro-needling and galvanic facial treatments, plus it lengthens the lifespan of Botox and fillers.

One Truth 818 serum significantly improves Rosacea and acne and can help prevent hair loss (although not genetic hair loss) plus it is safe and comfortable to use around the whole eye area.
